

adding a clocking signal as a [tenth] second additional file to said  
[nine] multiple and said first additional files;

sending each one of said [ten] multiple, said first additional and said  
second additional files and to a separate [one of ten different] tone  
generators;

generating a different tone for each one of said [ten] multiple, said  
first additional and said second additional files, wherein the frequency of  
each one of said tones are separated from one another by [the same] a  
specified frequency bandwidth;

combining said [ten] multiple tones into one multi-tone signal;  
transmitting said multi-tone signal over a communications line.

Respectfully submitted,

  
Jean-Marc Zimmerman, Esq.
